Request for Sanitized Versions of [REDACTED] Documents

I have recently received copies of the following [REDACTED] documents:

25X1C

1. BIC R-14-815 (September 1963), Sino-Soviet Rice Economic Activities in Non-Communist Underdeveloped Areas, 1 January-30 June 1963

2. CIC No. 0300/63A - Special Report - Soviet Payment Problems (4 October 1963)

Regarding document #1, a sanitized version for foreign dissemination is published but usually follows the original document by such a long period of time that its contents are rather outdated. I would greatly appreciate it if you could see if anything could be done so that the sanitized version is made available to us at an earlier date in order to be of use [REDACTED]

25X1X7

25X1C

I also wonder if we could explore with [REDACTED] the possibility of drawing up this semi-annual report in the future with an eye to the need for the version that could be disseminated [REDACTED]

25X1X7

25X1X7

Perhaps this report could be prepared initially as a sanitized document with a KOTCH attachment which could easily be detached when transmitted outside the US Government, in our case, to [REDACTED]

25X1X7

I think this would be extremely helpful for [REDACTED] and ourselves since we could then get the document earlier and [REDACTED] would not have to redo it in order to produce a second (sanitized) version.

25X1C

25X1C

Regarding document #2, we would like to either receive a sanitized version of this document or be informed as to what material contained therein may be transmitted [REDACTED]

25X1X7
